

A heatmap visualization of the correlation matrix for 10 units and 10 concepts. The x-axis is labeled 'Concepts' and the y-axis is labeled 'Units'. Both axes are indexed from 0 to 9. The color scale ranges from -0.8 (dark red) to 0.8 (dark blue), with 0.0 being white. The diagonal elements (where Unit index equals Concept index) are all 1.0, represented by white squares. The off-diagonal elements show varying degrees of correlation. Notable features include a strong negative correlation (dark red) between Unit 2 and Concept 4, and several other moderate negative correlations (light red/orange) between Unit 2 and Concepts 1, 3, 5, 6, 7, 8, and 9. Most other correlations are weak, represented by light gray or white squares.
